

675-1000
When i read it

When i read it
I broke down and cried
I could not share it
No matter how hard i tried
And each time i see those words
My heart's blown open wide
That's what happened
When i read it

When i read it
I smiled ear to ear
From that moment forward
I wouldn't live in fear
Though all is still present
The truth is so clear
That's what occurred
When i read it

When i read it
The i finally knew
The thing that is known
By only a few
That love is e'er present
And that words tell me true
That's what happened
When it read it

Good words
Lovely words
Perfect words
