When you're down

When you're down
Think of all the sunlight you have seen
Remember all the places you have been
When you're down
When you're sad
Let the feeling wash you clean
Our lives are nothing more than a dream
When you're sad
And when you're tired
Walk among the flowers and the tree
Feel the gentle warmth of a spring breeze
When you're tired
When you're sad
When you're down
It all turns around
It all turns around.
