Wherever i am

Wherever i am there you are too
Whenever i see i a shooting i wish upon it just for you
Just for you

Wherever i am you come along
And every day for you i'll write just one more song
One more song

Wherever i am the sun will shine
And deep inside my heart i feel fine
I feel fine

Wherever i am i look for love
And grateful that whatever i have is just enough
I have enough

Wherever i am
Wherever i am
