While i waited

While i waited
You found another
It didn't take long
For me to discover
It's not your fault
The drama created
But i lost you
While i waited

While i waited
Life went by
I think i'm waiting
To finally die
Or maybe just
To hear the dr say
That i won't last
Another day

While i waited
I grew old
No great story
To unfold
Forever young
And i'm elated
I fantasized
While i waited

While i waited
The universe ended
Hunter was right
Rainbow's bended
The speed of light
Back in time
I shouldn't have waited
Such a crimeg
