

184-1000  
Who made the stars

Who made the stars  
I wondered as a child  
Spread upon the darkness  
In my youth beguiled

Who made the stars  
The mystery persisted  
At times found me wond'ring  
If they real existed

Who made the stars  
Someone told me god  
Then they ordered me believe  
His actions i should laud

Who made the stars  
Hawking says a bang  
I don't get how out of nothing  
A trillion stars just sprang

Who made the stars  
I guess it matters not  
As long as on the clearest eyes  
They still capture my heart
